

PERSONALIZING LEARNING *FOR ALL STUDENTS IS A CHALLENGE*

Your students have the passion and dedication to excel in their music education, and you strive to provide them with the best opportunities to grow. Now, you can enhance their learning experience with our specialized music micro tutoring service.

Traditional music classes provide a solid foundation, but they may not always address the individual needs of each student. What your students really need is personalized, focused attention.

Expert micro tutoring, tailored for your students.

With our micro tutoring service, you can overcome common challenges:

- Individualized attention to help each student progress at their own pace
- Mastery of more complex pieces and techniques
- Development of a well-rounded program that encourages student engagement and retention
- Preparation for success in local, regional, national, and international festivals and competitions

VALERIE COOLIDGE *OROVILLE, WA*

Practicing Musician saved my music program. I have gone from students who could not read music during my first year as a band director in 2018 to a music program where the five ensembles I took to this year's Solo and Ensemble Contest did a clean sweep of Superiors! Two of these students are also going to State Solo and Ensemble. I consider all these students my Practicing Musician babies because they begin their music-learning journey with practicingmusician.com!

STUDENT *TESTIMONIALS*

Practicing Musician helped me learn things I hadn't learned in class, and it was easy to learn!

-5th grade student, Burlington-Edison School District

I really enjoy my Practicing Musician [micro tutoring] teacher! He is fun and focused and kindly helps me when I make mistakes. It's helpful to watch the videos and then actually talk to someone about what I learned.

-Izayla Hauptman, age 12 homeschooler

Practicing Musician helped me learn so much more than the method book my previous teacher had me use!

-11 year old student, St. Marks Catholic School
